<b>Facility AUDIT FINDINGS</b>
--------------------------------

<b>Summary of Audit Findings</b>
----------------------------------

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

<b>Targeted Inmate/Resident/Detainee Interviews</b>	
<b>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	13
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
<b>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</b>	4
<b>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</b>	2
<b>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</b>	0

<p><b>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</b></p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p><b>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b></p>	<p>No apparently blind residents were identified during the site review.</p>
<p><b>63. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>1</p>
<p><b>64. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>2</p>
<p><b>65. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</b></p>	<p>4</p>
<p><b>66. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</b></p>	<p>3</p>

<p><b>67. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:</b></p>	<p>9</p>
<p><b>68. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:</b></p>	<p>17</p>
<p><b>69. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</b></p>	<p>0</p>
<p><b>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</b></p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p><b>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b></p>	<p>Residents are not placed in restricted housing because of their risk for sexual victimization.</p>
<p><b>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</b></p>	<p>Numbers of residents in targeted categories add up to more than the number of residents interviewed because many qualified for more than one category.</p>

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

**84. Did you have access to all areas of the facility?**

Yes

No

**Was the site review an active, inquiring process that included the following:**

**85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?**

Yes

No

**86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?**

Yes

No

**87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?**

Yes

No

**88. Informal conversations with staff during the site review (encouraged, not required)?**

Yes

No

<p><b>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b></p>	<p>Paid close attention to the camera angles and what could be viewed by male staff from both a security and a privacy perspective.</p>
--	---

**Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p><b>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b></p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

<p><b>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</b></p>	<p>No additional comments.</p>
---	--------------------------------

**SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

**Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

**92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:**

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual abuse</b>	6	0	6	6
<b>Staff-on-inmate sexual abuse</b>	4	1	4	4
<b>Total</b>	10	1	10	10

**93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:**

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual harassment</b>	4	9	4	4
<b>Staff-on-inmate sexual harassment</b>	0	0	0	0
<b>Total</b>	4	0	4	4

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

#### 94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted

The agency’s primary document which states its commitment to zero tolerance is IDOC Policy 149 Version 4.0, Prison Rape Elimination. IDOC Policy 149.01.01.001, Prison Rape Elimination. These policies and procedures outline the department’s and the facility’s approach to prevent, detect, and respond to sexual abuse and sexual harassment. IDOC Field Memorandum 149.01 PWCC, Prison Rape Elimination, approved February 2, 2023, outlines specific procedures unique to PWCC.

These policies, resident handbooks, posted signs, staff and resident interviews, observations of interaction between staff and residents all support the conclusion that a culture of zero tolerance is well established at the facility.

The agency’s PREA Coordinator is Teresa Jones. Her position is full-time, dedicated to overseeing the agency’s efforts to comply with PREA standards. She reports to a person of sufficient authority within the agency and supports designated PREA Managers at each of the department’s 14 correctional facilities, including PWCC.

Evidence that the PREA Compliance Manager has sufficient time and authority to complete her job is the achievement of a 100% compliance with applicable PREA standards at this facility. The response from most interviewed residents that they felt safe being housed at this facility is further evidence that the purpose and intent of the standards is being met.

	<p>The Idaho State Department of Correction contracts with two private agencies who house their inmates in two prisons, one of which is outside the state of Idaho. Core Civic operates the Saguaro Correctional Center in Saguaro, Arizona, housing up to 477 Idaho inmates in a prison with a capacity of 1,680. Management Training Corporation operates the Correctional Alternative Placement Program (CAPP) near Boise, with up to 442 inmates. Both contracts require the private agencies to comply with PREA standards.</p> <p>Both facilities have been audited for compliance with PREA standards within the last three years, and both were found to be in 100% compliance.</p> <p>Based on this information, the auditor determined that the agency is in full compliance with this standard.</p>

The plan outlines how each of the requirements - (1) through (11) was met in setting the minimum staffing levels. In addition, the facility provided documentation of an annual meeting in which the staffing plan was reviewed.</p>

	<p>The plan indicates that the facility has 17 supervisory staff including the warden, a deputy warden, six lieutenants, and six sergeants. It also has 51 correctional officer positions, including 6 corporals. The plan also details the numbers of case managers, program and clinical staff, and administrative positions.</p> <p>During the site review, the auditor confirmed the minimum staffing levels of each housing unit and other areas where residents are present. At each housing unit, he questioned facility staff as to the minimum level of staff that was always present. Staff shortages caused deviations from the staffing plan within the last year but did not cause the facility to deviate from filling its mandatory positions.</p> <p>The facility is well-equipped with a new, extensive system of internal and external security cameras, installed in November 2022. The camera data is recorded and stored for possible use to support or contradict allegations of sexual abuse or harassment.</p> <p>In the opinion of the auditor, the housing units are adequately staffed – i.e., the staffing levels met the minimum necessary to prevent, detect, and respond to incidents of sexual abuse and sexual harassment. Supervisory staff interviews and written documentation indicate that unannounced rounds are regularly conducted for all areas of the facility on all shifts.</p> <p>Quarterly PREA meeting agendas indicate that the staffing plan and staffing levels of each facility are discussed between the agency PREA Coordinator and the individual facility PREA Managers.</p> <p>The 2020 agency annual report indicated that there were eight reports of sexual abuse at PWCC in that year. Similarly, eight cases of sexual abuse were reported in the 12-month period preceding the on-site audit. Of these cases, three were found to be substantiated. The absence of any other reports of sexual abuse for the one-year period prior to the onsite visit is further evidence of the adequacy of staffing levels. Likewise, resident interviews that uncovered zero incidents of sexual abuse or harassment and the very high percentage of residents feeling safe is evidence that the facility meets this standard.</p> <p>The addition of a high-quality camera monitoring system in November 2022 appears to have further enhanced the facility’s ability to keep residents safe from sexual abuse and harassment. The auditor finds that the facility meets this standard in all material ways.</p>

IDOC policies and directives require that all staff who have contact with residents receive PREA training upon hire (before being assigned to work on a unit), and annually thereafter. The training includes:

- Zero tolerance
- Prevention, detection, reporting, and response
- Residents' rights
- Retaliation
- Sexual abuse and harassment in confinement
- Common reactions of victims
- Detection and response to threatened or actual abuse
- Inappropriate relationships with residents
- Communication with LGBTI residents
- Mandatory reporting

IDOC policies require, and auditor interviews and document review indicate that all

	<p>staff receive this training and understand its content. Eighteen facility staff were interviewed, and all demonstrated a good understanding of their responsibilities regarding the prevention, detection, and response to incidents of sexual abuse and harassment.</p> <p>The department’s training materials are comprehensive, thoughtful, and well-designed. They go beyond just restating the words of the standards; they explain the details and intent. Post-tests are used to ensure that staff understand the content of the training. Briefing sheets are provided to supervisors to remind staff of key training points in between training sessions. Training is provided both in classroom sessions and through self-directed computer refresher sessions. Correctional officers are provided with “information cards” that they carry with them and refer to in the event of a report or discovery of a sexual abuse incident. The cards outline the basics of a first responder’s duties.</p> <p>The auditor’s review of this evidence leads him to the conclusion that this standard is met and exceeded in policy, procedure, and practice.</p>

- Agency PREA coordinator interview
- Facility PREA manager interview
- Resident interviews

The screening forms require that the intake officer ask specific questions and make his or her observations of the presence of risk factors. In the auditor’s opinion, these criteria are objective in nature, and they are applied objectively. The criteria include:

- Whether the resident has a mental, physical, or developmental disability
- The age and physical build of the resident
- Whether the resident has previously been incarcerated
- Whether the resident’s criminal history is exclusively nonviolent
- Whether the resident has prior convictions for sex offenses
- Whether the resident identifies or appears to the intake officer as LGBTQI or otherwise gender nonconforming
- Previous sexual victimization
- The resident’s own perception of vulnerability

In addition to screening residents for their vulnerability and risk factors for victimization, the form and intake process are used to assess residents’ risk for being sexually abusive. Prior acts of sexual abuse, prior convictions for violent offenses, and prior history of institutional violence are considered.

The auditor randomly chose ten residents and reviewed their screening and rescreening forms. The auditor’s review of this evidence leads him to the conclusion that this standard is met in policy, procedure, and practice.

## **Interviews**

## **Site Review Observations**

- Posted signs

Residents learn that they can report sexual abuse or harassment in multiple ways, including:

- Resident handbook
- Posted signs
- Intake Briefing
- Brochures and pamphlets

The internal ways include:

- Verbal report to a correctional officer or other staff
- Written report via resident communication form to any IDOC staff person
- Verbal or written report to the facility PREA Compliance Manager
- Filing an offender grievance

The external ways include:

- PREA Hotline (\*773)
- Letter to the Agency PREA Coordinator
- Letter to the Idaho Sheriffs' Association
- Via a third-party, such as a family member or other community member

Policy specifies that a written complaint can be submitted anonymously; an anonymous report is accepted and investigated. Resident interviews consistently verified that residents know of the various internal and external ways of reporting.

Staff interviews confirmed that they understand the importance of documenting verbal reports and the requirement to promptly pass all reports up the chain of command to be addressed. Staff interviews also verified their knowledge of policy regarding their own methods of privately reporting sexual abuse and harassment of

	<p>residents.</p> <p>A 1-800 telephone number and a generic email address, victimservices@idoc.idaho.gov, are available for direct contact with the agency PREA Coordinator.</p> <p>The department has a written agreement with the Idaho Sheriffs' Association (ISA); according to the agreement the ISA will accept resident or resident complaints and refer the information back to the appropriate level of the department for investigation. Mail handling policies allow for such correspondence to be sent anonymously and confidentially.</p> <p>Line staff interviews indicated that the normal means of notification is to shift commander, supervisor or the facility duty officer. Staff also indicated that they could report to others in the administration, including the warden, as opposed to a strict interpretation of the chain of command.</p> <p>The auditor's review of this evidence leads him to the conclusion that this standard is fully met in policy, procedure, and practice.</p>

## **Interviews**

- Investigator interviews
- PREA Compliance Manager interview
- Warden interview

IDOC policies and procedures require notification of the reporting resident of the results of administrative investigations, investigations by outside agencies, and investigations referred for criminal prosecution. The auditor reviewed the documentation of all investigations conducted in the year preceding the onsite audit. Documentation of resident notification was included in each case where it was required.

One of these cases alleged abuse of two residents by a correctional officer. Agency policy requires notification in such cases:

- When the staff member is no longer posted within the resident's unit
- When the staff member is no longer employed at the facility
- When the agency learns that the staff member has been indicted on a charge related to sexual abuse in the facility
- When the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility

The facility provided documentation that the appropriate notifications were provided to the two resident victims in this case.

Further, IDOC policies and directives require notification of the reporting resident following her allegation that she has been sexually abused by another resident. When the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility, policy requires notification. There were no instances of residents being charged criminally in the year preceding the on-site audit.

The PREA Compliance Manager, Warden, and investigator interviews, review of IDOC policies and procedures, and detailed review of all investigative files for the year preceding the onsite audit lead the auditor to the conclusion that this standard is met in policy, procedure, and practice.

## **Documents**

- IDOC Policy 149.01.01.001, Version 6.0, Prison Rape Elimination
- IDOC Field Memorandum 149.01.01.001 PWCC, Prison Rape Elimination
- Sexual Abuse Incident Reviews of Incidents in last year
- PREA Annual Reports -2018 through 2021

## **Interviews**

- Agency PREA Coordinator interview
- Facility PREA Compliance Manager interview

IDOC Policies require an administrative review of all alleged sexual abuse and sexual harassment incidents, unless determined unfounded. The Warden is required to obtain input from supervisory staff, investigators, and medical or mental health practitioners when completing the review. The review team includes upper-level management, with input from line supervisors, investigators, and medical or mental health practitioners. The facility is required to implement recommendations that result from the review, or to document the reasons for not doing so.

IDOC Policy requires the Warden or designee to conduct a prompt, thorough investigation, after reporting a serious or unusual incident and to complete an Administrative Incident Review. The review is required to include:

- A review of the circumstances of the incident
- The name(s) of the person(s) involved
- Events leading up to and following the incident
- A consideration of whether the actions taken were consistent with IDOC policies and procedures
- A review of whether lesser alternative means of managing the situation were available
- An identification of actions, if any, that could be taken to avoid future incidents of a similar nature and identification of training needs
- A determination of whether employee action or inaction was a factor
- Corrective action taken

A review of the last 12 months' investigations indicated that a full review was completed in accordance with the standard in all cases for which it was required.

The facility provided access to three annual reports, for calendar years 2018, 2019, and 2020. The 2019 and 2020 reports each contained an analysis of these incidents statewide and recommendations for addressing the issues. The 2020 annual report recommended the addition of a new camera system at PWCC. These cameras were added in November 2022.

The auditor's review of incident review records and staff interviews indicates that these policies and the other requirements of the standard are followed in practice. The auditor's review of the evidence leads him to the conclusion that this standard is

	met in policy, procedure, and practice.
