

Hi All-

No significant operational changes to report. As of 1700 hrs today, 47 confirmed cases of COVID-19 are reported for Idaho. We do not have any confirmed cases in our system.

We'll have a more detailed update for you tomorrow. We'll be reviewing the most recent operational period with an eye towards what's next and any adjustments that need made. We also will have some updates on longer-term emergency planning.

I hope everyone had a great weekend!

Thanks-
Josh
