

COVID-19 Update - July 27, 2020

Hi all-

Happy Monday! Earlier this evening, we wrapped up another Board Meeting. I'll give you a full report tomorrow.

Staff Test Results: It was a relatively uneventful weekend with 1 staff member from ISCI reporting positive test results on Sunday. Today, we received the results of our first round of mass testing for ISCI staff. Of the 174 staff tested, 172 returned negative, 1 positive, and 1 inconclusive. The last group of ISCI staff will be tested tomorrow with IMSI and SBWCC on deck for Thursday.

Incarcerated Population Testing: As of this evening, our current numbers are as follows: 2,028 tested, 121 pending, 1,126 negative, 61 symptomatic positives, 218 asymptomatic positives, and 502 inactive cases. There's going to be more movement on testing for the incarcerated population this week, with testing of the remaining 222 individuals at SAWC wrapping up today. Those numbers aren't yet included in the pending tests, but will show up in tomorrow's counts. We'll have a more detailed update later this week on continued mass testing plans.

That's it for this evening, but we'll have more tomorrow. Until then, stay safe and take care of yourself!

Thanks-
Josh
