

COVID-19 Update - August 06, 2020

Hi All-

Brief update tonight, so I'll get right to it.

Staff Testing: Today, we received word that two additional staff tested positive—one is from District 3 and the other is from SICI.

Incarcerated Individual Testing: We received some good news with the results of the SBWCC mass testing. 235 of the 236 samples returned negative! The remaining sample couldn't be run so another sample was taken and submitted to the lab. As of this evening, we're now at 3,220 individuals tested, 76 pending, 2,122 negative, 72 symptomatic positives, 216 asymptomatic positives, and 734 cases no longer considered active.

On the mass testing front, we finished testing the remainder of the SICI compound today. Next week's schedule will wrap up mass testing at ISCC and includes A & D blocks on Tuesday, G block on Wednesday, and F block on Thursday.

Have a great night, and we'll have more tomorrow. In the meantime, please stay safe and take care of yourself.

Thanks-
Josh
