

COVID-19 Update - August 07, 2020

Hi All-

Happy Friday! Mixed bag today on the update front.

Staff Testing: We had two additional positives today – 1 from SICI and 1 from IMSI. The IMSI result was part of our most recent mass testing effort, but that also means that the remaining tests from IMSI, SBWCC, EB CRC and Nampa CRC all returned negative.

Incarcerated Individual Testing: Earlier today, we received word that we had our first COVID positive test in Eagle Pass, Texas. The unit where the individual tested positive has been on quarantine since Monday when he presented with symptoms, and that unit is being closely monitored for the development of symptoms. Moments ago, we also received the results of our mass testing at RDU at ISCI and all tested negative.

We're closing the week 3,244 tests, 85 pending, 2,136 negative results, 72 symptomatic positives, 216 asymptomatic positives, and 735 cases no longer considered active. In Eagle Pass, TX, 18 individuals have been tested with 17 tests returning negative and 1 positive.

I hope everyone has a great weekend. Please stay safe and take care of yourself.

Thanks-
Josh
