

FY21 Incarcerated Population Report

Numbers as of June 30, 2021

The past fiscal year has been noteworthy due to the unprecedented nature of the COVID-19 pandemic. During FY21, IDOC saw an overall decrease in nearly all areas of our population except parole violators, in part due to the impact Idaho's stay-at-home order had on sentencing and supervision practices. It is expected that COVID-19 will continue to impact the IDOC population in a similar manner as observed in FY21.

¹**Retained Jurisdiction (Rider):** Individuals whom the court has retained jurisdiction over sentenced to a period of incarceration in an IDOC facility. The IDOC assesses riders to determine their needs and places them in the appropriate facilities to receive intensive programming and education. Upon completion of a rider, the court determines whether to place the resident on probation or sentence them to term.

²**Parole Violator:** An individual who violates the conditions of their parole. This is usually a temporary status until a hearing can be conducted to determine if their parole will be reinstated or revoked.

FY21 Incarcerated Population Report
Numbers as of June 30, 2021

Term Population

Rider Population

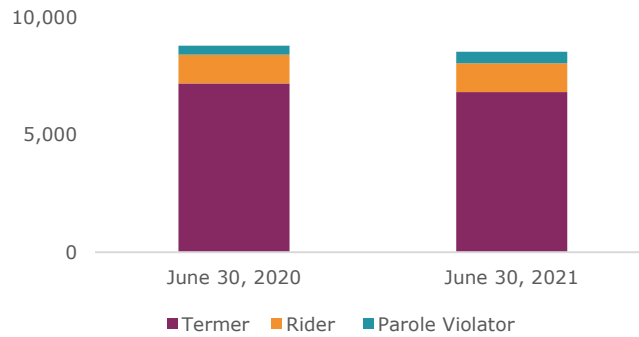

Parole Violator Population

Total Population

The total incarcerated population has increased 4.1% from FY17. However, there was a 2.9% decrease in the last fiscal year from 8,775 to 8,515. The term population decreased 5.1%. The rider population increased 0.2%. The parole violator population increased 28.3%.

Total Population
