Magnitude increases

Choosing a response: 1) Consider protective factors; 2) Do not mix higher risk offenders with lower risk offenders; 3) Individualize response based upon what is meaningful (as a reward or sanction) to the offender.

When responding to multiple behaviors, the level shall correspond to the most serious behavior. The PPO may select more than one reward or sanction from the same level or a lower level to respond to multiple behaviors. Use of multiple lower level responses cannot be substituted for a higher level response.
