

# MAJOR CONSTRUCTION PROJECTS

All construction projects are managed by the Division of Public Works (DPW). Funds for capital construction projects are appropriated years in advance and are strictly designated for construction purposes. Reverted funds are returned to the State's General Fund.

## WOMEN'S PRISON

Construction on the new women's facility began in November 2025. The facility will be located between SBWCC and IMSI. The facility, which has not yet been named, will provide 560 additional beds—512 standard beds and 48 RDU beds. Funding for the project was appropriated in Fiscal Year 2022.

**Expected completion date:** December 2027

## ISCI MEDICAL ANNEX

This new unit will add 280 beds to ISCI- 148 standard beds and 132 special needs beds. The special needs beds will be fully ADA-compliant to accommodate the aging population. The unit will be located between IMSI and ISCI.

**Expected completion date:** April 2027

## POCATELLO CRC

Construction on the new community reentry center began in September 2025, and once completed, the facility will provide 100 beds for men. Currently, the project is in the structural framing phase.

**Expected completion date:** November 2026

# MAJOR CONSTRUCTION PROJECTS

All construction projects are managed by the Division of Public Works (DPW). Funds for capital construction projects are appropriated years in advance and are strictly designated for construction purposes. Reverted funds are returned to the State's General Fund.

## ICIO EXPANSION

A single-story, 15,000 square foot unit will add 112 beds for men and will be located in the north-west corner of the prison. Site construction began on Feb. 23rd and will last until April. Work on underground utilities is scheduled to begin in July, and foundation work will begin in September.

**Expected completion date:** August 2027

## ISCI UNIT 7 REMODEL

Unit 7, the oldest unit at IDOC, is scheduled to be remodeled into a Restoring Promise Unit for mentors and mentees, with a capacity of 40 beds. The project is in the last phase of the design, with construction scheduled to start in early summer 2026.

**Expected completion date:** April 2027
