INTERVIEWS	
Inmate/Resident/Detainee Interviews	
Random Inmate/Resident/Detainee Interviews	
34. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	15
35. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input type="checkbox"/> Age <input type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
36. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	Due to the nature of the mission of the facility, the resident population is generally from the surrounding areas of IDAHO, Oregon, Washington State

37. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
38. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	the sample of random residents was selected by housing unit and bed assignments. The same bed number was used for each tier of the housing unit to ensure I received 4 random residents from each tier.
Targeted Inmate/Resident/Detainee Interviews	
39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	12
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
40. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	1
41. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:	1

<p>42. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>0</p>
<p>42. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>42. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Due to mission and physical layout of the facility they are not able to house residents with a physical disability or who is blind or low vision</p>
<p>43. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>
<p>44. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>
<p>45. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>1</p>

<p>46. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>2</p>
<p>47. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:</p>	<p>1</p>
<p>48. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:</p>	<p>5</p>
<p>49. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</p>	<p>0</p>
<p>49. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>49. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>There were no residents in involuntary segregation</p>

50. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):	No text provided.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

64. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

Was the site review an active, inquiring process that included the following:

65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

67. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

<p>68. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
--	---

<p>69. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>No text provided.</p>
--	--------------------------

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p>70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
--	---

<p>71. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>No text provided.</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

72. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	1	0	1	0
Staff-on-inmate sexual abuse	0	0	0	0
Total	1	0	1	0

73. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	5	0	5	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	5	0	5	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

74. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	0	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0	0
Total	0	0	0	0	0

75. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Staff-on-inmate sexual abuse	0	0	0	0
Total	0	1	0	0

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

76. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	0	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
Total	0	0	0	0	0

organizational charts meet the requirements of this standard. The agency's zero tolerance policy and guidance against sexual abuse is clearly established and the policy outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment allegations. The policy establishes a position of Agency-Wide PREA Coordinator with the responsibility to oversee the implementation and management of Prison Rape Elimination Act of 2003. The facility PREA compliance manager under the direction of the Agency PREA Coordinator carries out their duties.

Idaho Correctional Institution - Orofino (ICIO) Facility Director has appointed a PREA compliance manager with responsibility to coordinate with the Agency PREA coordinator to oversee the implementation and management of the Prison Rape Elimination Act of 2003. Both the agency PREA Coordinator and Facility Compliance Manager through interviews advised they have sufficient time and authority to coordinate efforts to comply with PREA standards.

The agency policies and training curriculum outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Residents are informed orally about the zero-tolerance policy and the PREA program during in-processing and during an additional admission and orientation presentation.

Residents are advised during Intake about PREA and the facility rules and regulations. They are advised to let staff know if they cannot read or understand the information. The information is offered in English and in Spanish in written formats. The auditor noted during the tour that written information regarding PREA was visible in all areas of the facility. All written documents are available in English and Spanish. Interpretive services are available for residents with limited English speaking or reading skills.

Employees, Residents, Contract and Volunteer staff received PREA training to include the duty to report and zero tolerance. The auditor observed the intake process during the on-site visit and noted the PREA information was reviewed and discussed.

Based on these findings and auditor observation and review of documentation, the facility MEETS compliance with this standard.

INTERVIEWS:

Facility Director

Facility PCM

Higher-Level Staff

115.13 (a) (b) (c) (d) IDOC policy requires the Facility Director along with the PREA Coordinator to review the staffing plan at least once a year. Interviews with the Shift Commander, Facility Director and PREA Coordinator and PREA Compliance Manager revealed compliance with the directive. The Shift Commander reviews the daily staffing rosters to ensure that staffing levels are met and overtime use. Each Shift Commander must receive approval to vacate a post and that post must not be a critical post. The audit included an examination of all video monitoring systems; staff interviews; and rosters. Supervisory and Administrative staff members make unannounced rounds covering all shifts and these rounds are documented through use of electronic log system. The unannounced rounds documentation received indicated that upper-level or higher-level staff made rounds on both shifts. Staff members are prohibited from alerting other employees regarding unannounced rounds. Interview with Shift Commander indicated that he makes his rounds first and then tells the control officer to log it in the record as an unannounced PREA round to avoid them knowing. An examination of policy and supporting documentation and interviews with Higher-level Supervisors, and PREA Compliance Manager confirms that they have a written staffing plan and it has been reviewed along with the PREA Compliance Manager within the past year. The Staffing Plan was revised in February, 2025 and signed on 2-11-2025. A comprehensive tour of the facility was conducted during the audit that included looking for blind spots, reviewing camera coverage and available staff in areas that residents are assigned. The auditor did not find any areas in need of additional cameras or staff.

	Based on this information, the auditor has determined that ICI-Orofino MEETS compliance with this standard.

	<p>115.15 (a) (b) (c) (d) (e) (f) The above policies meet the mandates of this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Officers would be required to document all cross-gender strip searches and cross-gender visual body cavity searches. Interviews with random staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the residents of the opposite sex except in exigent circumstances. Staff interviews also confirmed that female officers had been trained to conduct cross-gender pat searches. Staff interviews indicated that all security staff received cross-gender pat search training during Academy Post training and annual in-service training. The auditor observed that each housing unit has shower curtains for privacy. There is a door leading to the shower area and female staff announce their presence before entering the area. The facility has implemented a policy that all opposite gender staff working the units will announce themselves at the beginning of the shift and when entering the unit. The random resident interviews confirmed that an announcement is made regarding female staff entering the housing unit. Random residents were interviewed and acknowledged they were allowed to shower, and use the toilet without being viewed by staff of the opposite gender. The auditor observed the written notifications which stated Opposite Gender must announce prior to entering the unit. Staff interviewed were aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of a resident by a staff member at ICI-Orofino.</p> <p>Based on the review of policies and observations during the on-site visit to the housing units, and interviews with staff and residents it has been determined that ICI-Orofino MEETS compliance with this standard.</p>

Residents with physical disabilities indicated that they were able to read and understand the PREA information. Random and Targeted Resident interviews revealed that they were knowledgeable about ways to report an allegation if needed. The auditor interviewed 1 resident with cognitive disability, 2 residents with deaf and hard of hearing disabilities, and 1 with limited English disability.</p> <p>The agency maintains a contract with Language Link for interpretation services for languages other than English and with the American Sign Language for those needing that service. 115.31 IDOC Policy require all staff to receive PREA training before assuming duty as a new hire and annual In-Service training. PREA training is provided at the Academy and the Agency PREA Coordinator ensures that staff receive PREA training during their in-service training. The training includes all the elements of this standard.

The auditor reviewed the power-point training curriculum and the staff sign-in sheets to indicate they received the training. Staff interviews also indicated that they received the training during POST. The auditor interviewed 2 random staff who had been at the facility less than 6 months. They indicated that the Academy Training indicated that search preference for Transgender would be based on the gender of the facility and no consideration for Resident Preference. This was discussed with the PREA Coordinator and the policy was reviewed. PREA Coordinator reviewed the training and spoke with the staff to ensure that they understood the training required the consideration of the resident's search preference. In Service training is conducted online and in-person and monitored by the human resource staff. All staff interviewed with more than a year of service indicated that they had taken their online In Service training.

The auditor interviewed 14 random staff, 21 specialized staff and 2 volunteers and 2 contract staff who indicated that they received the PREA training. All staff

Facility PREA Compliance Manager

115.33 IDOC policy requires that residents receive orientation on facility rules and regulations as well as PREA. During intake, the residents are given a written copy of PREA brochure and residents rights and responsibilities are reviewed. The auditor observed the orientation during the on-site visit and found the information presented to be very comprehensive. Residents were given an opportunity to ask question and make comments during the session. Additionally, the facility utilizes Resident Mentors to help facilitate the orientation and they offer information from a resident perspective which was well received by the new residents. During the on-site tour, the auditor noted the PREA information throughout the facility. Resident interviews revealed that residents were aware of what PREA is and their right to be protected from abuse and harassment. They were aware of multiple ways to make a report of an allegation and felt comfortable with talking to staff if needed. The auditor had a resident utilize the hotline to make a report and it was a recording in which they could leave a message. The auditor left a test message. The recording was immediately received by the Agency PREA Coordinator. The auditor interviewed 15 random residents and 12 targeted residents.

The auditor interviewed 1 resident with cognitive disability; 2 residents with deaf/hard of hearing disabilities and 1 LEP resident (Farsi). The residents indicated that their disability did not prevent them from understanding the PREA information and they knew how to make a report if needed. The auditor noted that PREA information was posted in each housing unit and in common areas around the facility to include the visiting area in both English and Spanish. The resident who spoke Farsi indicated that they were able to understand English and is self-taught.

The auditor reviewed a sample of resident orientation sign-in sheets to indicate that PREA was discussed during intake.

Based on this information, the auditor has determined that ICI-Orofino EXCEEDS the mandate of this standard because the thoroughness of the Orientation Program and use of Resident Mentors.

115.35 IDOC Policy 149 requires that all medical and mental health staff receive yearly training on PREA to include a duty to report, confidentiality limits, and on-going care. The auditor interviewed the nurse contractor for Centurion and she was very knowledgeable about how to treat and care for a victim of sexual abuse. She indicated that she receives annual training through Centurion. The auditor interviewed the Health Service Administrator and she was knowledgeable of PREA protocols, follow-up services and duty to report. All mental health and medical staff have received the required specialized training on how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment, and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment, victim identification, interviewing, reporting and clinical interventions. The auditor reviewed the lesson plan for the training and the acknowledgement receipts to indicate that they received and understood the training as it relates to the PREA.

Based on the information provided, the auditor has determined that ICI-Orofino MEETS compliance with this standard.

Policy additionally govern that all residents that transfer from other facilities will be screened again. Residents are seen by a staff member who conducts the initial risk assessment. This is usually conducted in the medical area after Intake. The medical staff administer the objective Screening instrument within 72 hours of arrival. The first part of the screening is to determine risk of vulnerability or victim and then the second part of the instrument is to determine the risk of being a predator or sexual assaultive offender. In interview with the medical assistant and observation of the process, it is</p>

determined that the resident can be adequately screened to make this determination during this process. It is conducted in an office in medical and may not be overheard by other residents. Residents interviewed recall being asked the PREA screening questions at the time of the 72-hour assessment. The answers from the screening are input into the system, it will automatically generate a referral to mental health for those who disclose prior abuse or victimization if the resident requests it or is in agreement to see someone. The system will trigger a housing alert for residents who score as either victim or abuser. The case managers conduct the 30-day reassessment screenings for all residents usually within 15 - 20 days. Residents interviewed recalled being seen by the case manager after arrival and being asked about their perception of their safety and how are they adjusting. The PREA Coordinator indicated that if the resident did reveal information different from the initial assessment, the case manager can add the information and a new score can be generated. Residents are housed in an orientation unit prior to being assigned a permanent housing unit.

The auditor reviewed a sample of 12 Risk Screening forms for both 72 hour and 30 day reassessment and found that they had been completed timely.

Based on this information, the auditor determines that ICI-Orofino MEETS the requirement of this standard.

115.42 (a-g) IDOC policy and procedures state that risk screening information is used to determine housing, bed, work, education, and program assignments, with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive. Determinations for these assignments are made on a case-by-case basis. At the time of the audit, ICI-Orofino had two transgender residents and no intersex residents assigned to general population.

Placement and programming assignments for transgender or intersex inmate are reassessed at least once every six months. Policy states that a transgender or intersex inmate's own view with respect to his own safety should be given serious consideration when making these assignments. Transgender and intersex residents would be given the opportunity to shower, dress and use the toilet facilities separately from other residents.

During the on-site tour, the auditor observed that the all but one of the housing unit showers had a full shower curtain between each shower and residents may shower and not be viewed by staff or other residents. The showers in B Unit have 6 working shower heads on each side of the shower and there is no separation between them.

The residents shower one at time on each side of the shower which is separated by a shower curtain and they have a barrier that is place at the entrance to the shower for privacy and to alert anyone that someone is using the shower. The residents interviewed did not feel that they could be seen by opposite gender staff and was comfortable with the shower setup. The audit suggested that a curtain could be placed between the shower heads which would allow more residents to use the area and maintain privacy. The transgender residents interviewed felt that they could shower in privacy.

The auditor reviewed 12 sample files for application of the risk screening and interviewed (2) staff that conduct risk screenings. It was determined that the risk screening is conducted timely and it is an electronic file so a housing alert would highlight if the resident scored as a victim or abuser.

	Based on this information, the auditor determines that ICI-Orofino MEETS compliance with this standard.

This is also true if the inmate makes a report using the PREA function on the KIOSK. This number is also provided on the facility website for the public and on the PREA signage around the facility. The facility has a</p>

MOU with Idaho Sheriff Association to act as a 3rd Party reporting; however, it is for a mail-in report only. It would not be an immediate response. Interview with the mailroom staff indicated that any mail addressed to Idaho Sheriff Association is treated as confidential mail and not opened except in the resident's presence. These avenues to report meet the mandates of this standard. In interviews with random residents, it was determined that they are aware of the multiple ways in which they could make a report. There were 4 reported allegations during the review period. The auditors asked each of the random residents during interviews and none had made a report. The auditor interviewed one resident who was a prior victim and had made a report of Sexual Abuse by another resident in 2023 of an incident that occurred in 2018 at another facility. This was outside of the review period and outside of the timeframe for the collection of physical evidence. A review of supportive documentation and staff/resident interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately, and from a third party) for residents to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. The auditor found that PREA signage throughout the facility was sufficient to inform residents, staff or the public to explain reporting methods. The auditors found during the on-site visit that posters and signage was prominently displayed. The PREA Hotline number was placed directly on the inmate phones. The residents interviewed indicated that telling a staff member were the main ways that they would report. The auditor tested the Hotline by having a resident call the hotline and verify that it is operational.

Based on this information, it is determined that ICI-Orofino MEETS compliance with this standard.

Facility PREA Compliance Manager

Random Resident Interviews

115.52 (a-f) IDOC policies address the mandates of this standard. All allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Residents are not required to use an informal grievance process and procedures also allow an inmate to submit a grievance alleging sexual abuse/sexual harassment without submitting it to the staff member who is the subject of the complaint. Additionally, policy also prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision.

Policy states that there is no time frame for filing a grievance relating to sexual abuse/sexual harassment. Policy also addresses the filing of emergency administrative remedy requests. If a resident file an emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse he will receive an expedited response. The PAQ indicated that no emergency grievances were received in the past 12 months. There were no PREA allegations filed using the grievance process. There is no prohibition that limits third parties, including fellow residents, staff members, family members, attorneys, and outside victim advocates in assisting residents in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of residents. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by residents in which the inmate declined third-party assistance. Residents are held accountable for manipulative behavior and false reporting.

The auditor observed the grievance boxes during the on-site tour. The auditor interviewed the Grievance Officer who had only had the job for three weeks. She had a basic understanding of the process and I reviewed her logbook. If a grievance is submitted and states it is a PREA allegation, she forwards a copy to the PCM and PREA Investigator. If they find it is a PREA related matter, they assign it an investigation number, if it is not a PREA related matter it is returned to the grievance officer for processing.

Based on this information, the auditor has determined that ICI-Orofino MEETS compliance with this standard.

Memo to Staff from Facility Director

PREA Checklist

INTERVIEWS:

Facility Director

Facility PREA Compliance Manager

115.65 (a) IDOC Policy #149 address the mandates of this standard. Staff are required to take actions to secure the inmate and protect the crime scene if staff become aware in time to collect physical evidence. After learning of an allegation that a resident was sexually abused, the first staff member responding to the report shall notify the supervisor, separate the alleged victim and assailant, preserve and protect the crime scene, if applicable, until the appropriate steps can be taken to collect any evidence, monitor the alleged victim and assailant to ensure physical evidence is not destroyed, including washing, brushing teeth, changing clothes, urinating, defecating, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence. The responding supervisor will ensure that the alleged victim and known abuser are taken to medical and mental health services for examination and evaluation.

ICIO has a PREA Response Checklist that provides detailed guidance to employees regarding the expected coordinated actions to take place in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership.

Interviews with random staff and medical and mental health staff revealed that staff were aware of the process and procedures for a first responder.

Based on the results of staff interviews it is determined that ICI-Orofino MEETS the mandates of this standard in that staff are aware of the coordinated response.

The policy prohibits any type of retaliation against any staff or inmate who reports sexual abuse or sexual harassment or cooperates in related investigations. The monitoring of any type of retaliation is conducted for at least 90 days or longer if warranted. Policy outlines the protection measures available and requires the prompt re-mediation of any type of retaliation. The facility has designated the PREA Compliance Manager as the Retaliation Monitor.</p> <p>The PAQ indicated that there were four allegations of sexual abuse or harassment during the monitoring period. Two of the allegations were substantiated one for abuse and one for harassment. There were no residents present during the on-site visit that was being monitored on retaliation monitoring. The PCM meets with the resident for an initial retaliation monitoring sessions at the onset of the investigation. The facility has established an Incident Review Team. The team meet at a minimum quarterly if there are no cases and do a walk-around of the facility for PREA related issues.</p> <p>Based on the interview conducted with PCM it is determined that ICI-Orofino MEETS compliance with this standard.</p>

115.71 (a - i) IDOC policy and procedures address the mandates of this standard.

IDOC policies and procedures require a prompt, thorough, and objective investigation of all allegations, including from third parties, of sexual abuse or sexual harassment from an inmate or staff member or third party. Policy requires that the investigator collect and use any available physical and DNA evidence, video data, and interview any alleged victim, alleged abuser, or witness and assess their credibility.

IDOC policies also require that investigations are performed by persons who have received specialized training to conduct such investigations. Written reports are required that contain a description of the physical evidence, testimonial evidence, investigative facts and finding and the reasoning that determines credibility.

In accordance with PREA standards, during the course of such investigations, the Agency shall impose no standard higher than a preponderance of the evidence when determining whether allegations of sexual abuse or harassment are substantiated.

The facility investigators conduct administrative investigations at ICI-Orofino. If the allegation involves a staff member, The SIU in Boise will conduct the investigation. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the person's status as inmate or staff. The Facility

	<p>does not require a resident who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. There have been six allegations and investigations during the review period. The auditor reviewed six investigative case files and determined that the interviews and information collected were sufficient to make an appropriate determination.</p> <p>Based on the review of agency policies and procedures, and interviews with facility investigators, it is determined that ICI-Orofino MEETS compliance with this standard.</p>

The facility has a policy requiring any inmate who makes an allegation that he suffered sexual abuse or sexual harassment at ICI-Orofino facility be informed, in writing, whether the allegation has been determined to be unsubstantiated, substantiated or unfounded, at the conclusion of the investigation. When an allegation involves staff, the inmate would be informed if the staff member is no longer posted within their housing unit, is no longer employed at the facility, if the staff member was indicted on a charge related to sexual abuse within the facility or the Facility learned that the staff member was convicted on a charge related to sexual abuse. These findings would also be communicated to the inmate if the investigation was completed by an outside agency.</p>

	<p>When a resident’s allegation that he has been sexually abused by another inmate, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted or convicted on a charge related to sexual abuse within the facility. The PAQ indicated that there were four administrative investigations, with two being substantiated completed during the past 12 months. A review of the investigation files revealed that there was documentation that the residents had been notified in writing as to the outcome of the investigation.</p> <p>Based on a review of the information provided, it is determined that ICI-Orofino MEETS Compliance with this standard.</p>

115.78 (a - g) IDOC Policies and Procedures address the mandates of this standard. The Inmate Discipline Policy defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The policy identifies residents engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between residents does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate's disciplinary history and the sanctions imposed for comparable offenses by other residents with similar histories. Residents are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Policy. According to the PAQ, there were three cases of sexual harassment in which there was a substantiated finding. The allegation was substantiated and the resident received a disciplinary report. The disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to the inmate's behavior when determining what type of sanction, if any, should be imposed. The facility offers the alleged abuser therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. The institution does not discipline residents who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation.

Based on the policies and procedures and interview with the Facility Investigator and PREA Coordinator it is determined that ICI-Orofino MEETS the mandate of this standard.

INTERVIEWS:

Contract Mental Health

115.81 (a) (b) (c) (d) (e) Agency policies and procedures address the requirements of this standard. Medical Assistants conduct the initial PREA Screenings for the determination of risk. Medical Staff also conduct the risk screening form to determine if a resident requires a referral to Mental Health. Interview with the Health Service Administrator verified that medical staff conduct the screenings as part of their duties. The medical assistant interview the new arrival and conduct the screening in an office on the medical unit. The medical assistant verified that if a resident discloses either prior victimization or prior abuse history, the medical staff will generate a referral to mental health if the resident indicates that they would like to be referred. Interview with the medical assistant tasked with conducting the screening verified that when they conduct the assessment, they ask all of the screening questions and that the form does not allow them to move forward if a mental health referral is needed.

The case managers conduct the 30 day reassessments and they can see all prior screenings and if a resident has disclosed as a prior victim or abuser. The auditor interviewed a case manager and he stated that if a referral had not been made and he felt there was a need, he would refer the resident.

The auditor interviewed (5) residents who disclosed prior victimization during screening. They each indicated that they had been offered to be seen by mental health, but did not require on-going sessions. Verification that residents are referred to mental health and seen by mental health staff within 14 days was provided. Treatment services are offered without financial cost to the resident. This was confirmed by interview with the PREA Compliance Manager.

During interviews with Mental Health and Medical Staff they verified that they notify residents of their duty to report allegations of sexual abuse prior to their initial screening and medical reviews. They indicated that they would receive signed and

	<p>dated informed consents from residents. The facility may house residents under the age of 18. These residents are kept sight and sound separate in the medical department from all adult residents.</p> <p>The information related to sexual abusiveness and/or sexual victimization is limited to health care, mental health practitioners and other staff on a need-to-know basis for security, treatment plans, program assignments, housing, work, and management decisions.</p> <p>Based on this information it is determined that ICI-Orofino MEETS the mandate of this standard.</p>

INTERVIEW:

Contract Medical

115.83 (a - h) IDOC policy and procedures address the requirements of this standards. The facility will provide sexually abused victims with medical and mental health services consistent with the community level of care. Resident victims of sexual abuse, while incarcerated, will be offered tests for sexually transmitted infections, as medically appropriate. All treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

The facility will attempt to conduct a mental health evaluation of all known inmate-on-inmate abusers within 60 days of learning of such abuse history and offer treatment when deemed appropriate by mental health practitioners. Health services include medical and mental health aftercare plans to be developed no later than 30 days prior to the anticipated date of release for residents subjected to sexual abuse. The facility would assist in the arrangement of referrals for continued care following their transfer to or placement in other facilities or after their release from custody, if needed. Victims would also receive timely and comprehensive information about and timely access to all necessary medical services.

The PAQ indicated that there was one resident who reported sexual abuse during the auditing period and he was seen by medical and mental health. The auditor interviewed the medical and mental health providers. They were aware of follow-up treatment plans for any victim and mental health referrals for any resident accused of abuse.

Based on review of policies and procedures, and interview with medical and mental health staff, it is determined that ICI-Orofino MEETS the requirements of this standard.

Sample Sexual Abuse Incident Review

PREA Annual Reports

INTERVIEWS:

Agency Head

Agency PREA Coordinator

Facility PREA Compliance Manager

115.86 (a) (b) (c) (d) (e) IDOC policies and procedures outline and identify the requirements and procedures for the completion of an incident review at the conclusion of every sexual abuse investigation unless the allegation was determined to be unfounded. The review shall ordinarily occur within 30-days of the conclusion of the investigation. The policy states the team will be comprised of a multi-disciplined team to serve on the review team. The facility PREA Compliance Manager shall document review in the report including recommendations for improvements. The report shall be submitted to the Facility Director who shall ensure implementation of the recommendations or document the reason for not following them. ICI-Orofino had three substantiated cases of sexual harassment in the past 12 months. The Incident Review Team has been established. They meet quarterly as a routine and will meet within 30 days of the conclusion of an investigation. The facility has utilized a review team in a manner as outlined in the IDOC policies and standard provisions to include: 1) Whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; 2) Whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; gang affiliation; or other group dynamics at the facility; 3) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area

	<p>may enable abuse; 4) Assess the adequacy of staffing levels in that area during different shifts; 5) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. 6) Prepare a report of its findings, including but not necessarily limited to determinations made pursuant to §§ 115.286(d)(1) - (d)(5), and any recommendations for improvement and submit such report to the facility head and PREA Compliance Manager. The auditor reviewed the meeting minutes of the Incident Review Team for two quarters.</p> <p>Based on the review of IDOC policy and information provided, the auditor has determined that ICI-Orofino MEETS compliance with this standard.</p>

INTERVIEW:

Agency PREA Coordinator

Annual reports for 2022, 2023 are posted on the website for review. Audit Reports for several IDOC facilities are posted for review.

Based on this information, it is determined that the Agency is in compliance with this standard.

Since the deactivation of the OAS and use of the paper audit, the auditor has indicated at the conclusion of each standard provision if the facility meets or exceeds the standard.

The Overall Conclusion is that the facility ICI-Orofino MEETS the mandates of the standards. The auditor has assigned one standard for EXCEEDS. Standard 115.33 Inmate Education because of the use of Resident Mentors during the Orientation Process.
